helps to save the past for the future.

Our best opportunity to turn Snug Cove back into a vital community meeting place is to restore our historic buildings and improve the pedestrian walkways that link them, re-crafting the village that was here while respecting the passing of time.

Bowen Heritage was created by people with a vision for Snug Cove that embraces its rich heritage, demonstrated in iconic buildings like the Old General Store and the quaint and simple cottages that catered to our once-thriving tourist trade. Today, the organization works to teach Islanders and visitors alike about Bowen's heritage, to provide programs and events that celebrate our community, and to help preserve our historic buildings and rejuvenate Davies Heritage Orchard.

Help us restore the heritage of Snug Cove.
